Sorry for this last minute submittal. Let me know if you have any questions. Thanks.

**Donlin Gold Project Environmental Impact Statement**

On January 9, the Project EIS Team had a meeting to discuss the upcoming public scoping meetings in the Yukon and Kuskokwim Rivers area for the Donlin Gold Project EIS. Scoping meetings will start next week beginning in Bethel, Aniak and Crooked Creek (middle Kuskokwim River). The Anchorage meeting is scheduled for January 22. The week of January 28, additional scoping meetings will take place in Quinhagak, Kipnuk, Nunapitchuk, and Akiak (lower Kuskokwim River). Teleconference capabilities will also be provided at the scoping meetings to allow tribal and public participation from remote locations. Mark Jen will be attending the meetings next week. Tami Fordham will be attending the meetings the week of January 28.
